

Transport Evidence-Base

Government's overall goal

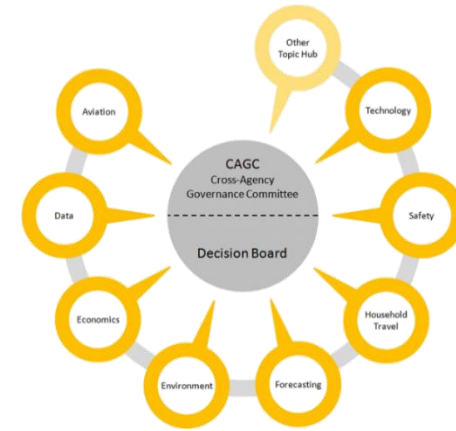

Transport sector outcomes

Data and information outcomes

Released July 2016

Transport Outcomes of 2018

Inclusive access

Enabling all people to participate in society through access to social and economic opportunities, such as work, education, and healthcare.

Economic prosperity

Supporting economic activity via local, regional, and international connections, with efficient movements of people and products.

Healthy and safe people

Protecting people from transport-related injuries and harmful pollution, and making active travel an attractive option.

Environmental sustainability

Transitioning to net zero carbon emissions, and maintaining or improving biodiversity, water quality, and air quality.

Resilience and security

Minimising and managing the risks from natural and human-made hazards, anticipating and adapting to emerging threats, and recovering effectively from disruptive events.

A transport system that improves wellbeing and liveability

Refresh the Domain Plan and Research Strategy

At a minimum

- Apply the 2018 Transport Outcomes
- Update the completed recommendations

Proposed additional scope to the documents

- Further prioritise and programme a small specific set of Domain Plan recommendations
- Move Research Strategy focus from strategic challenges to specific research questions
- Develop approaches to funding
