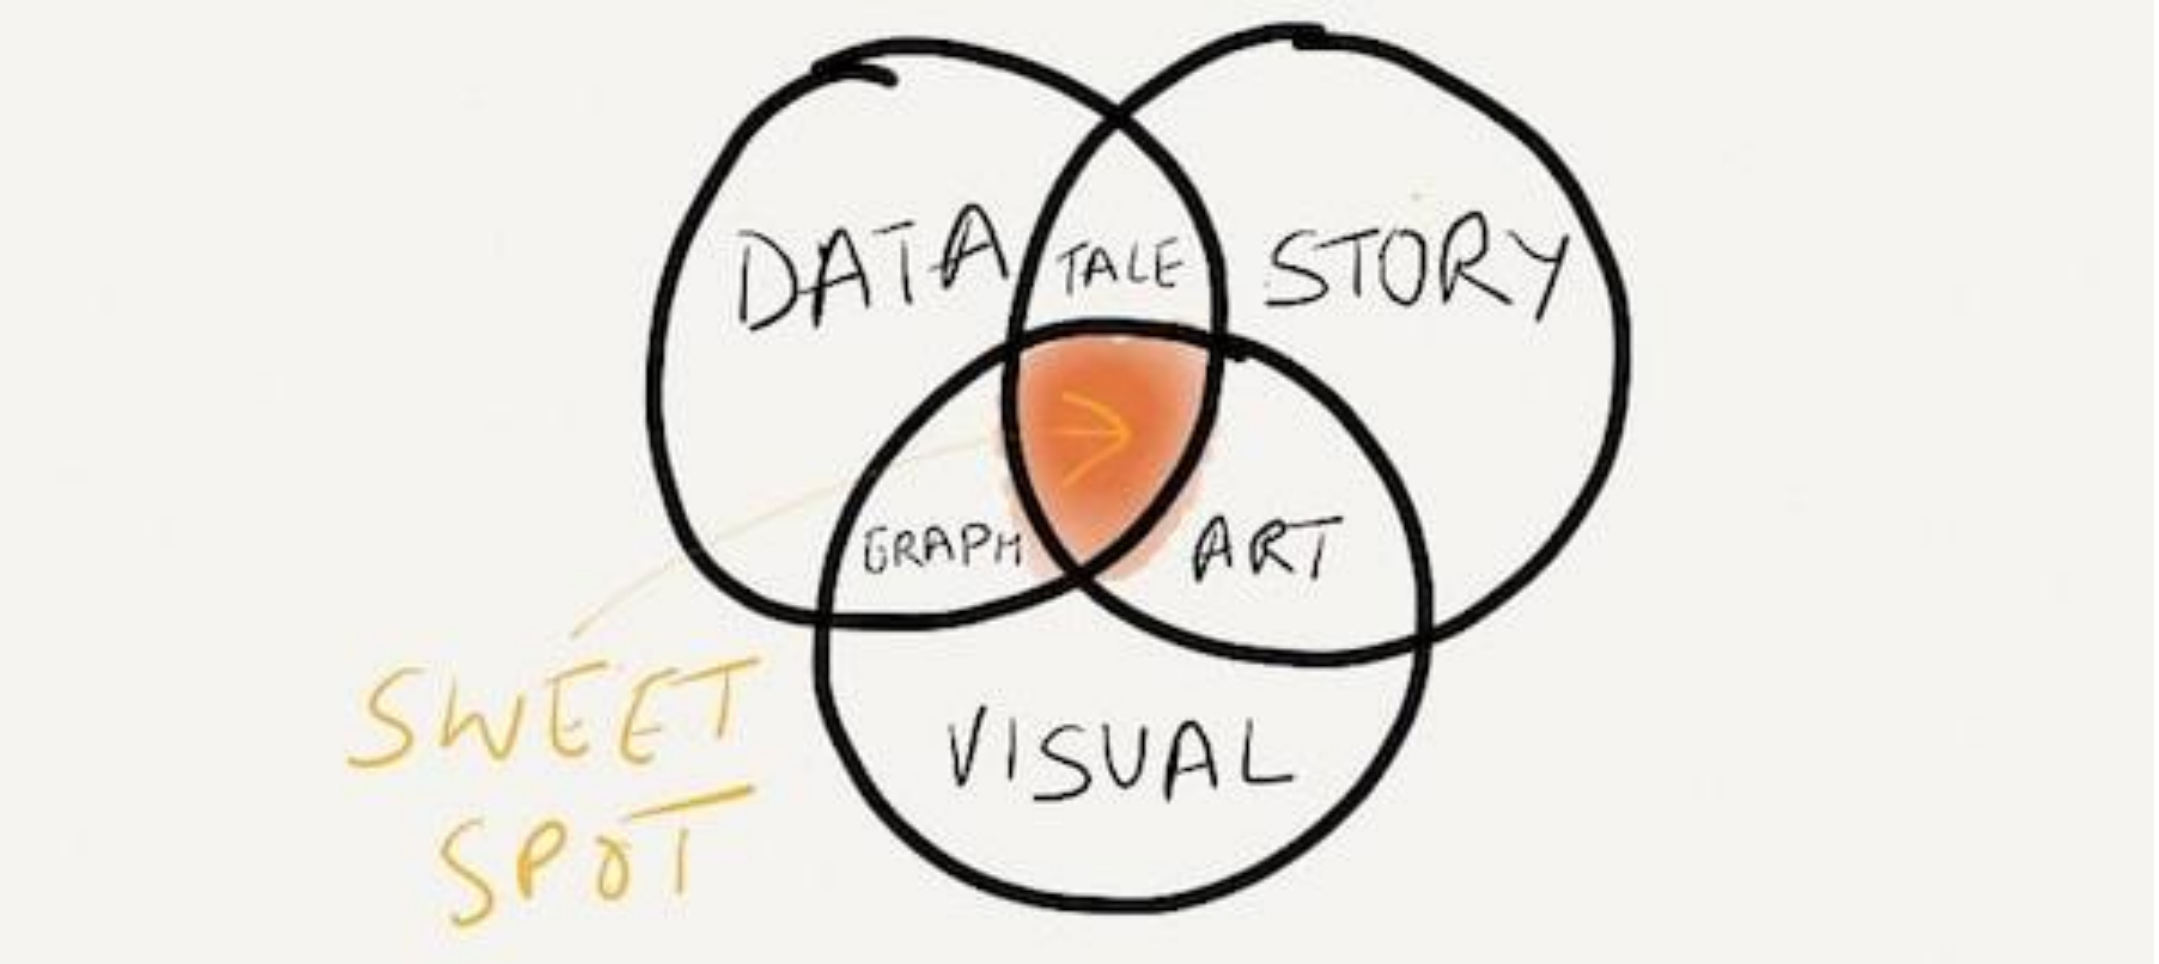
I didn’t know I loved data until…

Telling stories through data



#SaveOneMoreLife

SAVE ONE MORE LIFE
Reimagine how technology can make a meaningful difference to safety on NZ roads
NZ TRANSPORT AGENCY
New Zealand Government

Save One More Life Hackathon

March 2018

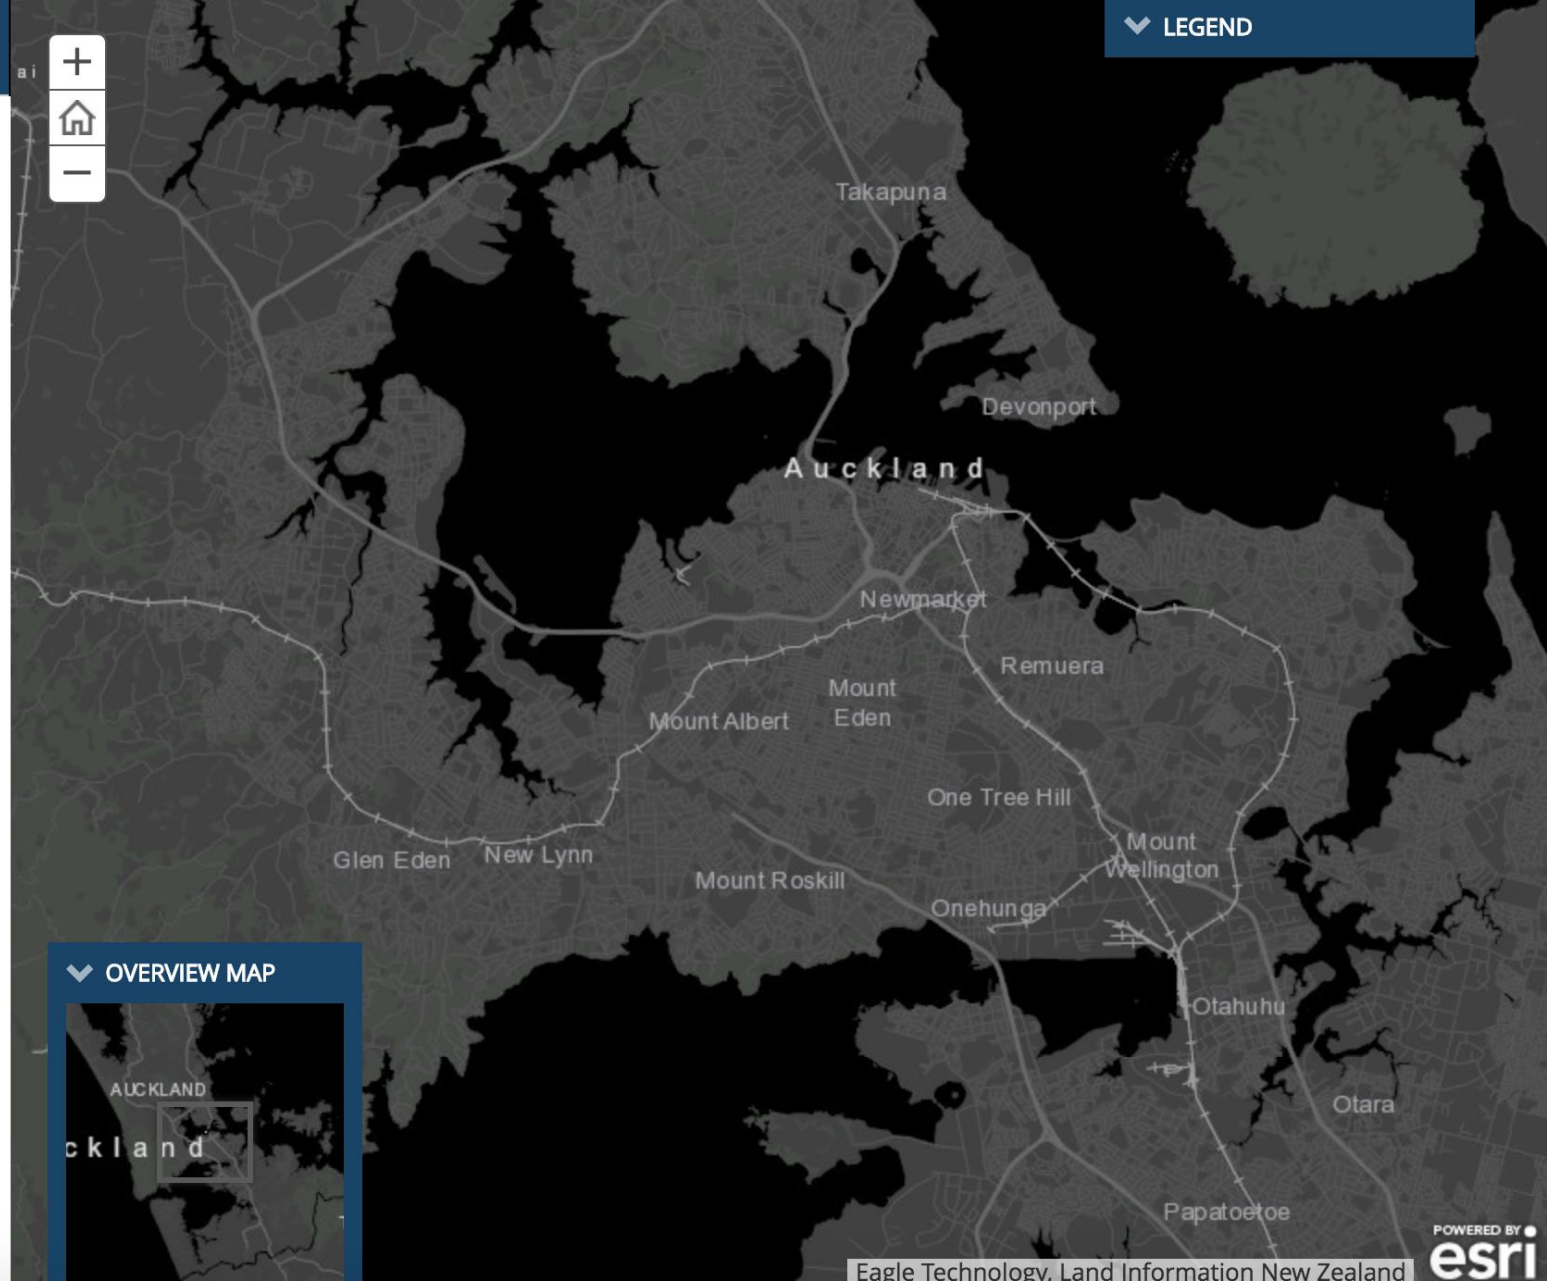
There is a wealth of road safety analysis and research. You can choose to re-use this, do your own or come up with your own approach.

This interactive web page introduces the key road safety challenges and helps guide you to existing sources of information.

Introduction to road safety

Key road safety challenges

- Restraints
- Impairment
- Speed
- Roads & Roadsides



What did we learn?

- And would we do it again?

  - Generation of new ideas and solutions
  - Built a community around innovation, and road safety
  - What don’t we know
  - Better understanding of consumption
  - Prioritise where to next
