Transport Domain Plan & Research Strategy

Domain Plan - details the data and information gaps identified by the wider transport sector

Research Strategy - creates a research environment to ensure investment in the right research

Collectively these aim to ensure that the sector has the right data and information to support evidence-based decision-making

Transport Knowledge Hub

Communities to broaden research, evidence, analytics and modelling

A mechanism to connect public and private organisations

Collaborate to identify and prioritise data and research under the Transport Domain Plan and Research Strategy.

Transport Knowledge Conference – Thursday 15th November, Wellington
